RESPONSE TO RESTRICTION
REQUIREMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

In response to the restriction requirement mailed January 3, 2000, Applicants elect to prosecute Group I, claims 1-18, 34, 35, and 61-63, drawn to nucleic acids, vectors, host cells and methods of making a polypeptide. In response to the Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures, Applicants note that a sequence listing (paper copy and diskette) and statement were filed in the PTO on January 31, 2000.

The foregoing election is made with traverse, as the four groups set forth by the Examiner all stem from a common concept and theory, and are thus related. As such,

prosecution of the claims of Groups I-IV would not place a substantially greater burden on the Examiner. Applicants therefore respectfully request that the Examiner withdraw the Restriction Requirement and consider all the claims together.

If the Examiner has any questions regarding Applicants' election, or if the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at (415)576-0200.

Respectfully submitted,

Annette S. Parent
